This template contains four 3" x 3" gift tags and two bookmarks. Please print this page on a color printer using recycled cardstock. Use a scissor or craft knife to cut the cards. The gift tag has space in the top left corner in case you want to punch a hole and attach a ribbon or string. Use the back for names and handwritten message.

Thank you for downloading our tags and participating in the Green Gifting movement. We hope you will continue to practice greengifting and encourage others to do so as well.
