This template contains six 3" x 3" and two 1"x3" gift tags. Please print this page on a color printer using recycled cardstock. Use a scissor or craft knife to cut the cards. The gift tags have space in the top left corners in case you want to punch a hole and attach a ribbon or string. Use the back for names and handwritten message.

Thank you for downloading our tags and participating in the Green Gifting movement. We hope you will continue to practice greengifting and encourage others to do so as well.
